

## QUICK PHONICS SCREENER, Standard Version

The QPS helps determine which key phonics skills a student knows well or still needs to learn.

### Say to the student:

1. ***"I'm going to ask you to read some words and sentences to me so I can find out what kinds of words are easy for you to read and what kinds of words you still need to learn. I want you to try to do your best. We probably won't do this whole page; we'll stop if it gets too hard. Any questions?"*** (The teacher may explain that some of the words are make-believe or pseudo words.)
2. For the *NAMES* task, have students name the letter Q, not the /qu/ sounds. For the *SOUNDS* task, have students give you the SHORT sound for each of the VOWELS. If they say the long sound (letter name), say: ***"That is one sound that letter makes. Do you know the short sound for that letter?"***

### Procedures for Administration

#### STARTING POINT:

For students in Grade 3, start the QPS at Task 2A.

#### MOVING FROM TASK TO TASK:

3. If the student misses five words in Task 2A, move to 2B and then go back and administer letter sounds (Task 1B).
4. Administer each section of each task (i.e., words in isolation and then words in text).

#### ERROR CORRECTION:

If a student does not know a word, tell him/her to skip it and move on to the next one. Do not read the word for the student.

#### STOP TESTING:

5. **STOP** the assessment when the student appears frustrated or tired. **NOT ALL TASKS MUST BE ADMINISTERED**, but try to assess as many as possible so you will have sufficient information to plan instruction.
6. When a student misses five words in the word box, move to the words in text. Then, move to the next word box task. If the student misses five words in that word box, complete that task (administer the sentences), and stop the assessment.

Note: A teacher may choose to administer additional tasks in order to gain further information but care must be taken not to frustrate the student.

### Scoring the QPS

1. Mark errors and make notes/comments to help you remember how the student responded. Students should read the words as whole words without sounding them out to be recorded as a correct response.
2. **The QPS is scored by each individual task ONLY.** Record the ratio of CORRECT responses over the total number POSSIBLE (e.g., 13/21 or 8/10) for each task. For Tasks 2b, 3b, 4b, 5b, and 6b, only the underlined **word counts, but note or make comments about how well other words were read.**

**NOTE:** The grade level listed above each task is an APPROXIMATE level at which those phonics skills are taught. **Results from the QPS CANNOT be used to determine a student's grade-level performance in reading, only their strengths/needs in key phonics skills. Mastery level is at least 90%.**
